Summary

Motivated, self-taught learner, detail-oriented with an analytical background. Eager to start my career as a Full Stack Developer utilizing skills in Photoshop, JavaScript, SQL, jQuery, C#, Angular.JS , HTML5/CSS3. Diverse cultural background, motivated by helping others succeed. Believe knowledge is power so continuous learning is significant in my life. I enjoy challenges and would love to join a software development team where I can continue to learn, build my skills and deliver value to the business.
